

# *CASE STUDY*

**LEARNING MANAGEMENT SYSTEM**

# PROBLEM

- The main problem for the organization was to expand their business, it was very expensive.
- They needed a solution for their small classrooms as more students were getting enrolled and there was a limited room for their students.
- They wanted a platform to manage all the students in their institute.
- The main problem for the organization was to expand their business, it was very expensive. They needed a solution for their small classrooms as more students were getting enrolled and there was a limited room for their students.

# WE OFFERED

**NOT JUST OUR TIME**

## **LIVE CLASSES**

We provided E-learning solution through live class. We provided E-content for the students like in the form of pdf's, animated videos, Word doc, PPT's etc.

## **E-CONTENT**

We provided E-content for the students like in the form of pdf's, animated videos, Word doc, PPT's etc.

## **PENDRIVE COURSES**

We gave the option for pen drive courses for students so that they don't need to have internet access all the time, student can buy the pen drive course containing offline content.

## OFFLINE AVAILABILITY OF CONTENT

Student can download the videos and the content therefore they don't need 24\*7 internet access they just need internet connectivity to download the study material.

## BRANDING INCREASED

The capital investment also got saved, through this they don't need to spend high expense on the increasing their ranking and branding.

## OBSTACLE REMOVED

The problem of student limitation in a single class is solved, now there is no barrier for student to attend a single class. Multiple students can access the same class at same time.

*IMPACT*

## RESULT

*The institution was very satisfied with the results; it helped the institution in improvising their teaching process and methodologies. It also helped them reach out to more number of students at same time.*

*THANK YOU!*
